

Rheimint Tin Label:

Print on white printer paper 'actual size,' cut out around edges of label and use glue stick to adhere to 'mini' tin as can be found here: <http://www.papermart.com/hinged-rectangular-tin-cans/id=23271#23271>

For best results, tin should be spray painted similar shade of brown or gold as found on the label prior to adhering label.

Labels are not to be printed and resold.

Dane Lengerman Collection.
